

March 11, 1976

in entering that amendment at that particular line and it should have been on line 18 because Senator Cavanaugh has corrected that, I didn't read that right when I injected that. But, it would be for....it would apply to those people under workmens compensation law the way it is presently entered. It should be in line 18.

PRESIDENT: Senator Dworak.

SENATOR DWORAK: Mr. President, colleagues, the logic of Senator Chambers in this particular issue just totally baffles me. Why have a law, in other words, if we pass this law for people not to follow it, they will lie, so passing the law will create liars out of people. Any law that we pass is going to create liars out of anybody, or criminals out of everybody. The way to eliminate crime then would be to eliminate all of the laws and we wouldn't have any crime. It is just absolutely unfounded. It gives specific positive directions to the Department of Labor to follow in these instances where abuses exist, and it should be on there. It is clear and I urge the adoption.

PRESIDENT: Senator Fowler.

SENATOR FOWLER: I'm rather stunned at this amendment. They say that it is to take care of providing for double benefits. People being paid twice. The language says that if you just apply. It doesn't make any difference whether you get it or not, if you just apply you are qualified. I think that that is pretty astounding. Senator Cavanaugh has pointed out that on Workmens Compensation....

PRESIDENT: It is far too loud in here. If you don't want to pay attention to Senator Fowler, please keep your conversations a little lower.

SENATOR FOWLER: Thank you. Senator Cavanaugh has pointed out that in the area of Workmens Compensation that if you simply apply for a claim, that for that length of time you are disqualified from getting unemployment benefits. It puts a person in a very difficult position. They have to decide which to apply for, they don't even know whether or not their claims are going to be granted. They can only choose one or the other. If they want to get rid of people receiving double benefits then they should write language that would say that. But if your application is accepted in one case then you are disqualified. But, to make the simple act of applying for a workmens compensation, for disability programs or retirement or any of these other places, for making the simple act of applying grounds for disqualification for unemployment is totally unreasonable. I would oppose this amendment.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: I think that possibly we are getting a little far afield in our discussions and we are concerned for those who are unemployed. This bill deals only with those who have quit voluntarily or by an abuse of their employment as a result of that have been fired. Now, I think that we are worrying about all of the other people that exist in this
